

## Los Cerros wins Colombian ESG award

**Los Cerros Limited (ASX: LCL) (Los Cerros or the Company)**, wins the Colombian Gold Symposium ESG Award<sup>1</sup>. The award assesses the calibre of social engagement in terms of both procedures and real world success.

The award is in acknowledgement of the *Miraflores Somos Todos* (We are all Miraflores) program created by Los Cerros and co-led with the community to deliver alternative income, and entrepreneurial and assistance programs in the local area. The program is primarily focused on the artisanal mining community of Miraflores, and positively impacts the larger Quinchia community.

**Photo:** The Los Cerros Colombian senior team and MD Jason Stirbinskis at the ESG award ceremony.

Artisanal mining can be a dangerous activity, is often environmentally harmful and usually has only marginal financial benefit for the miners and their families. The main objective of the program is to facilitate the transition of miners away from informal mining activity and into more sustainable and rewarding activities. The Company/Community joint program draws on principles of empowerment, self-determination and self-management so that dependence on the Company is reduced and sustainability and autonomous living is achieved.

The three pillars of the program are:

- 1. Food security and health** programs which have thus far benefited 100 miners and their families. This includes providing specialist advice, training, equipment and stock and supports the optimization of food production for their own consumption.

**Photo:** Agricultural assistance seeks to optimize food production on local farms.

<sup>1</sup> The annual award is open to all explorers and miners within Colombia.

**2. Scholarship programs in higher education** (university and technology programs at the National Open University, UNAD) are in place for the children of miners. To date, 13 students have benefited from the payment of full tuition, internet access and provision of computers by the Company.

**Photo:** Students, Municipal Mayor and Company officials.

**3. Entrepreneurial productive projects,** is the flagship element of Miraflores Somos Todos and includes a 'Major Projects' program directly overseen and championed by Los Cerros' Managing Director, Jason Stirbinskis. Major Projects include high profile initiatives such as Quinchips and Quinchia Coffee.

**Photos:** Programs have involved supply of feed and fertilizers and support for coffee and cocoa farmers.

**Photos:** The program offers support for small-scale commercial and domestic pig farming.

**Photos:** Los Cerros imports Quinchia grown coffee beans into Australia. The program is at modest cost to Los Cerros but has a far-reaching, positive impact in Quinchia. Quinchips is a self-sustaining program to manufacture and sell Quinchia-grown plantain chips in local supermarkets.

### **Mr Stirbinskis added**

*"As the Company commences the transition towards a Preliminary Economic Assessment and Environmental Impact Assessment submission for the Company's 2.6Moz resource inventory<sup>2</sup> it is important that the Company and the local communities continue with open and supportive engagement to ensure that any future development decision will incorporate the aspirations of local communities and be supported by local stakeholders."*

For the purpose of ASX Listing Rule 15.5, the Board has authorised this announcement to be released.

**FORWARD LOOKING STATEMENTS** This document contains forward looking statements concerning Los Cerros. Forward-looking statements are not statements of historical fact and actual events and results may differ materially from those described in the forward-looking statements as a result of a variety of risks, uncertainties and other factors. Forward-looking statements are inherently subject to business, economic, competitive, political and social uncertainties and contingencies. Many factors could cause the Company's actual results to differ materially from those expressed or implied in any forward-looking information provided by the Company, or on behalf of the Company. Such factors include, among other things, risks relating to additional funding requirements, metal prices, exploration, development and operating risks, competition, production risks, regulatory restrictions, including environmental regulation and liability and potential title disputes. Forward looking statements in this document are based on Los Cerros' beliefs, opinions and estimates of Los Cerros as of the dates the forward-looking statements are made, and no obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future developments. Although management believes that the assumptions made by the Company and the expectations represented by such information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any anticipated future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, among others, the actual market price of gold, the actual results of future exploration, changes in project parameters as plans continue to be evaluated, as well as those factors disclosed in the Company's publicly filed documents. Readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws. No representation, warranty or undertaking, express or implied, is given or made by the Company that the occurrence of the events expressed or implied in any forward-looking statements in this presentation will actually occur.

### **JORC STATEMENTS - COMPETENT PERSONS STATEMENTS**

The technical information related to Los Cerros assets contained in this report that relates to Exploration Results (excluding those pertaining to Mineral Resources and Reserves) is based on information compiled by Mr Cesar Garcia, who is a Member of the Australasian Institute of Mining and Metallurgy and who is a Geologist employed by Los Cerros on a full-time basis. Mr Garcia has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration, and to the activity which he is undertaking, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Garcia consents to the inclusion in the release of the matters based on the information he has compiled in the form and context in which it appears.
